

It pays to hire the best...

...and Terebro's Xcalibre™ hydraulic diamond drilling systems are the safest and most reliable on the market

- ✓ Hydraulic, stand mounted drill for cores up to 700mm diameter
- ✓ Hydraulic, hand-held drill for cores up to 50mm diameter
- ✓ Hydraulic power pack powers hand-held and stand-mounted drills
- ✓ No other power source required
- ✓ No risk of electric shock
- ✓ Ideal for wet conditions
- ✓ Fits standard core drill bits
- ✓ Available with or without operator
- ✓ Delivery & collection service available

Terebro's range of Xcalibre hydraulically driven diamond drilling equipment has been designed and manufactured to very high standards to give maximum reliability and precision cutting. Hand held and rig-mounted core drills are available.

The low noise levels of these spark free drills make them suitable for use indoors and in hazardous or wet environments. Drills can be hired on a daily or weekly basis to suit the hirer's business needs. Drills can be rented as complete kits or individually.

TEREBRO
SPECIALIST PLANT HIRE

About Terebro

Terebro is a specialist plant hire company and we pride ourselves on personal service. You'll always be dealing with the people who run the company or operate the equipment we hire. As a true specialist hire company, we only hire the best quality equipment available, expertly maintained and regularly tested.

We offer delivery and collection from site and equipment is available with or without an operator depending on your needs.

Specifications

DIMAS DR300 drill stand

Height of column:	1000mm
Dimensions: Length:	400mm
Width:	240mm
Height:	1170mm
Weight:	28kg
Anchorage:	M12
Min tensile load:	5.7daN
Drill Diameters:	150mm to 700mm
Travel rotation for one turn of capstan:	32.2mm

Stand-mounted WSMV4157 drill motor

Drill diameters:	150-400mm
Max RPM:	255
Water attachment fitted:	Yes

Stand-mounted WSMV4370 drill motor

Drill diameters:	400-700mm
Max RPM:	110
Water attachment fitted:	Yes

Hand-held Magnum 15 drill motor

Max drill diameter:	50mm
Max RPM:	1500
Water attachment fitted:	Yes

Lifton LP 11-40 Power pack

Dimensions: Length:	745mm
Width:	700mm
Height:	720mm
Weight (including oil):	110kg
Anchorage:	M12
Noise emission:	
(sound pressure level - 1m)	$L_{PA} = 98\text{dB}/20\mu\text{Pa}$
(sound power level)	$L_{WA} = 105\text{dB}/1\text{pW}$
(instantaneous sound pressure level - 1m)	$L_{PC} \text{ max peak} = 116\text{dB}/20\mu\text{Pa}$
Hydraulics: Flow	20lpm at 1800rpm \pm 200 40lpm at 3600rpm \pm 200
	<i>Oil flow can be adjusted between 20 and 40lpm by regulating the engine rpm</i>
Hydraulics: Nominal pressure	120 bar
Engine:	18hp (13.2kw) at 3600rpm
